For Guys Mag: Hi Charlie! The last time we talked was earlier this year in February when you graced our February cover. A lot has happened since then. From multiple Playboy covers to Esquire, Vogue and numerous other magazines and websites. You are everywhere. Truly a global phenomenon. It seems your career is like a rocketship. What is your life like today?

Charlie Riina: Yes, I've been blessed it's been very busy for me. My life is pretty hectic at the moment but I wouldn't have it any other way.

FGM: Every time I look up there you are representing yet another brand. Your travel schedule must be crazy! How do you manage?

CR: I don't even know how I manage, haha, I just go forward, I don't look back and I don't care what anyone thinks. I wake up saying today I can do anything and I kill the day.

FGM: What are the differences in modeling in the US, Canada and Europe if there are any?

CR: Modeling in Europe is more relaxed I find, where in the US it's so hectic. I find it more relaxed in Europe, although they're usually always late for everything which can be a bit annoying cause I'm always on time! Haha. FGM: I predict we will see you in Sports Illustrated soon and I am sure I speak for your many fans when I say I'd love to see you in a Carl's Jr. burger commercial.

CR: You never know! I have a few things up my sleeve I like to keep quiet and then shock everyone

FGM: Of course, I have to ask, single or taken?

CR: I'm freshly single :)

FGM: What do you do in your very little spare time?

CR: In my spare time, if I get any, I like to spend time with my family and friends.

FGM: Any particular interests or hobbies?

CR: Horse riding, playing chess or painting.

FGM: Finally, is there anything you would like to tell us about your future plans and what your fans can expect next from you?

How to evaluate furniture, value vs. price

The Question
Some people have often asked me: If I can buy a whole lot of stuff from a big box store, why should I invest in your quality furniture?

Here's why: **There is no substitute for real long-lasting quality!**

Dorm Life versus Professional Life: How are You Living?
Are you still living in a college dorm? The items in your place say a lot about you. What does dorm life or college lifestyle look like to a guest, especially a woman?

Dorm Life
Let's start with the furniture: sofas, bookcases, tables, and chairs. What does the furniture look like and how long will it really last? You must focus on quality. If you want something that's going to fall apart when you move in, will be in a landfill three years from now, or you'll see it at your friend's place. Go ahead and continue to shop at the Swedish big box store that serves meat balls next to the sofas.

Let's talk about artwork. The art work on your wall should be tasteful, so guys, posters you'd find in a college dorm room are not acceptable to a woman! Nothing taped or tacked to the wall!

Real Life: Becoming a Professional
However, if you are at that stage in life where you want to leave the college lifestyle behind you and become a professional, Bachelor Haus will help you make that transition. Our team of interior designers and stylists are dedicated to making you king of your castle which means we want you to be proud of how your place looks in order to make your date or guests feel like they are walking into a man's home and not a boy's.

Quality Bachelor Pad Furniture for Professionals
What really separates the men from the boys is Solid wood. It doesn't warp, doesn't lose its shape, or break down like particle board does. If the price of your sofa is less than your monthly car payment, it is particle wood (unless you're driving a top tier German sedan). It may look great from afar but will be far from good-looking after owning it for a year or two, and we all know that after several years, a cheap car will fall apart. The same holds true with furniture. Be proud of what you own.

Why Should I Buy a Furniture Set Versus an Individual Piece?
Each piece of furniture needs to be carefully selected to build a complete theme. Every piece of furniture in each room should work together to create the look and feel you want. Whether you prefer a modern or transitional look, the furniture in your place should project confidence and quality.

By purchasing a set of furniture from Bachelor Haus, you are guaranteed that all the pieces complement each other. Our team of interior designers carefully select each piece of furniture to build a complete theme for a bachelor pad whether it's **Modern** or **Transitional Style. Furthermore, quality pieces sell out and collections change. Not purchasing all the pieces together might mean not being able to purchase a piece down the road.** It's easy to tell when one piece is not part of the original collection. Your guests will notice it, too.

How Is Each Piece of Furniture Selected?
Our team of experienced interior designers select key pieces based on several characteristics: quality of construction, durability of fabric or leather, and how it looks to you, the modern man.

Consider how much time you spend driving your car and how hard you worked for that vehicle. Now consider how much time you spend on your sofa, so shouldn't you feel the same way about your furniture that you do about your car, or even your clothes? Quality furniture can be expensive,

but that's because its going to last you several years.

Why Should You Trust Our Interior Designers?

Our team of designers have over 50 years of experience working in their profession, have designed hundreds of rooms, and have degrees from the nation's top design schools. **You be the judge and have a look at the room sets yourself.**

We are not apologizing for our high prices; they justify the quality of our furniture and the effort our designers put into pairing the products together.

We know Rome wasn't built in a day; however, Bachelor Haus can furniture your place in a day! **Bachelor Haus provides the complete solution to furnishing your bachelor pad. Get started now!**

Visit us at www.bachelorhaus.com and use promo code "forGuysMag" to save $100 off any purchase over $899. Shipping and taxes are always FREE, and our furniture doesn't smell like Swedish meatballs.

I've been modeling for a little over a year now. I'm from a small town in Northern California and I enjoy small town fun. I have two cats, a dog and a bearded dragon. Working with animals is my passion and what I want to do for the rest of my life. I got into modeling because I've been told all my life I should, so I decided to go for it. It's definitely been a positive! I've been in one modeling competition and one thing is for sure, I will never do pageants and being on the runway is not the life for me. I grew up with two older brothers so believe me I can fight.... LOL I truly think the only way to be a huge success is you have to believe in yourself, 100%!
